

PARADYM EVENTS

DESIGN ASPECTS TO CONSIDER

YOUR WEDDING is one of the most important days in your LIFE and it should reflect your INDIVIDUAL personalities as well as your unique style. Starting from this strong foundation, Paradym Events will add ELEGANCE and glamour by nurturing YOUR VISION and expanding the possibilities before you. Your wedding should be an event that will be remembered for YEARS to come for setting a precedence of grandeur and BEAUTY.

EVERY aspect of the ceremony and reception should EXCITE your senses and awaken your spirit. This means each DESIGN aspect must be embellished to create not just decorations but a STIMULATING and inviting environment. Fabric swaged throughout the ceiling dramatically changes the scale of the room and brings another VISUAL FEATURE. Polished stones or moss added to a centerpiece increases TEXTURE and adds uniqueness. With each DESIGN aspect, consideration must be given to not only your style, but, also to the facility where your wedding will be held.

COLOR is very important since it is unique to your own tastes and personality. Through the colors you have chosen, we are able to add life and vibrancy to an event space. Color can set trends and create moods. Pastels and pale neutrals are more traditional and create a romantic feeling; whereas, a vibrant red or orange presents a striking visual and emits a passionate feeling.

LIGHTING can change the entire ambience of the room and draw attention to features otherwise forgotten. Adding candles brings a glow to the room that excites romance and intimacy. Coiled lighting woven through the buffet tables highlights the variety of food textures and colors and draws attention to the caterer's presentation.

TEXTURE heightens your senses of touch, smell, and sight and helps set the tone of your wedding whether you are adding a chiffon overlay, satin napkins, or fragrant fruit to your centerpiece. In every part of the room there should be a flickering candle, flowers fragrantly filling the air, or the sound of crystal clinking.

PROGRESSION from one space to another brings variety and gives a beginning, middle, and end to the event like the scenes of a play. This can be accomplished even if the ceremony and reception are in two different locations or progress from an outdoor area into an indoor space. While continuity of the design is important each area can have its own unique and exciting feature.

SCALE is a critical element to consider with your design. The size of the space can be used to create visual drama with ceiling décor, the number of candles or lights in the room, or giving height to floral arrangements. Don't be afraid to think larger.

DECORATION CHECKLIST
